

ZHI LI

Hydro Lab 2017, 301 North Mathews Ave, Urbana, Illinois 61801, USA

zhil2@illinois.edu | <https://ZhiLiHydro.github.io>

RESEARCH INTERESTS

Environmental Fluid Mechanics, Sediment Transport, Fluvial Morphodynamics, Computational Fluid Dynamics

EDUCATION

University of Illinois at Urbana-Champaign, Dept. of Civil and Environ. Engr. 2021 (expected)

Ph.D. in Water Resources Engineering and Science

Advisor: Prof. Marcelo H. García

Thesis: Numerical Modeling Study on Meandering and Cutoff Dynamics

*Committee: Prof. Marcelo H. García (Chair, UIUC), Prof. Gary Parker (UIUC), Prof. Bruce L. Rhoads (UIUC),
Asst. Prof. Rafael O. Tinoco (UIUC), Dr. Eddy J. Langendoen (National Sedimentation Laboratory, USDA-ARS)*

Michigan State University, Dept. of Civil and Environmental Engineering

2014

M.S. in Environmental Engineering

Nanjing University, School of Earth Sciences and Engineering

2012

B.S. in Earth Sciences with Geology specialization

RESEARCH EXPERIENCES

Ven Te Chow Hydrosystems Laboratory, University of Illinois at Urbana-Champaign 2016 - Present

Graduate Research Assistant

Supervisor: Prof. Marcelo H. García

Environmental Fluid Mechanics Laboratory, University of Pittsburgh

2014 - 2016

Graduate Research & Teaching Assistant

Supervisor: Asst. Prof. Jorge D. Abad

Groundwater Modeling Laboratory, Michigan State University

2012 - 2014

Graduate Research Assistant

Supervisor: Prof. Shu-Guang Li

MOE Key Laboratory of Surficial Geochemistry, Nanjing University

2010 - 2012

Undergraduate Research Assistant

Supervisors: Assoc. Prof. Lianwen Liu & Assoc. Prof. Liang Zhao

TEACHING AND MENTORING EXPERIENCES

Undergraduate Student Research Mentor, University of Illinois

2020 - 2021

- Supervised by the Promoting Undergraduate Research in Engineering ([PURE](#)) program of College of Engineering
- Research projects: 1) *CFD 101: Modeling the Chicago River*, and 2) *Fluvial Geomorphology 101: Modeling Meandering River Migration* (winner of the Best Presentation Award)

Undergraduate Student Research Mentor, University of Illinois

2020 - 2021

- Supervised by the Undergraduate Research Apprenticeship Program ([URAP](#)) of Office of Undergraduate Research
- Research projects: 1) *Simulating the Chicago River Flooding Issue*, and 2) *Reverse Engineering Hydraulic Modeling Visualization Tools by Implementing Delaunay Triangulation using Java*

Teaching Assistant, University of Pittsburgh

2015 - 2016

- CEE 2416 Sediment Transport (graduate level)

"Cutoff processes and their importance for bed and planform morphodynamic adaptation." *IAHR River Flow Conference*, 2016. doi: [10.1201/9781315644479](https://doi.org/10.1201/9781315644479)

TALKS

4. "pyRiverBed: A Python framework to generate synthetic riverbed topography of constant-width meandering rivers", *CSDMS Summer Science Series*, Boulder, Colorado, USA (event moved online), 2020. [\[link\]](#)
3. "Two-dimensional and three-dimensional hydrodynamic modeling of the Calumet River System and Indiana Harbor and Ship Canal", *8th International Symposium on Environmental Hydraulics*, South Bend, Indiana, USA, 2018.
2. "A numerical model for river meanders: Open-Telemac (Part II)", *UIUC Geo-Hydro Discussion Group*, Urbana, Illinois, USA, 2018.
1. "Cutoff processes and their importance for bed and planform morphodynamic adaptation", *River Flow conference*, St. Louis, Missouri, USA, 2016.

SKILLS

- **Geophysical flow and sediment transport modeling:** Proficient in TELEMAC, Delft3D, HEC-RAS
- **CFD & meshing:** Proficient in FLOW-3D, OpenFOAM, Fluent, ANSYS Meshing, Gmsh, BlueKenue
- **Programming languages (scientific computing oriented):** Proficient in Python, Matlab, C, Fortran
- **Scientific visualization:** Proficient in Tecplot, ParaView, VisIt, EnSight, Python-Matplotlib, R
- **GIS & CAD:** Proficient in ArcGIS, AutoCAD, Civil 3D
- **HPC:** Rich experience in deploying HPC projects on AWS EC2, campus clusters and supercomputers
- **Cloud computing:** AWS Certified Cloud Practitioner (Validation Number DS3KMN71NBF41S34)

GRANTS AND SCHOLARSHIPS

- **(2020, Agency: TACC)** Fellowship of the Texas Advanced Computing Center (TACC) 2020 Summer Institute on Computational Research Techniques - Scientific Visualization.
- **(2020, Agency: CSDMS)** Travel fund scholarship of the CSDMS Annual Meeting.
- **(2019, Agency: NSF)** Assisted advisor on writing the allocation proposal requesting supercomputing resources on the NSF-supported XSEDE platform (Grant Number TG-CTS190067).

OTHER SERVICES

- Reviewer of scholarly journals: Advances in Water Resources, Journal of Hydrologic Engineering, Journal of Hydraulic Engineering, Geology, Computers and Geosciences, Journal of Marine Science and Engineering
- AGU Earth and Planetary Surface Processes (EPSP) Section student committee member
- Volunteer of AGU Fall Meeting
- Exhibitor of UIUC Engineering Open House
- Treasurer of IWRA student chapter at the University of Illinois.

PROFESSIONAL AFFILIATIONS

- Member, American Geophysical Union (AGU) and Gilbert Geomorphology Club
- Member, International Water Resources Association (IWRA)
- Member, International Association for Hydro-Environment Engineering and Research (IAHR)
- Member, American Society of Civil Engineers (ASCE)
